

# Public Comment Draft #1 Balloting Procedure

- Proposals that were approved by the Consensus Committee will be placed in a Committee Action Report (CAR) that will include the action taken on all of the proposals considered (see below) and reproduction of committee approved proposals in strikethrough/underline as committee revisions to the 2021 IECC.

Results of the Commercial Consensus Committee				Proposal Number		CC action		vote yes	vote no	abstain	%

# Public Comment Draft #1 Balloting Procedure

- The CAR will be posted and a link to a single electronic ballot (first balloting) provided to committee members. On the signature page of the ballot, instructions will be included with direction for members to vote on the results of the approved code changes noted in the CAR in accordance Section 9.1 of the ICC Consensus Procedures (below). Select one of the following:
  - Affirmative (all code changes)
  - Affirmative with comment (comments on separate file; send to Secretariat)
  - Negative, with reasons (the reasons for a negative vote shall be given and if possible, should include specific wording or actions that would resolve the objection) **SEE NEXT SLIDE**
  - Abstain, with reasons (reasons on separate file; send to Secretariat)
- Comments provided with Affirmative vote are for the record only, no action required by the committee. See Section 9.4 of ICC CP for abstentions – reasons provided for the record and excluded from numerical requirements for consensus.
- Ballots will be open for 30 days.

# Negative vote, with reasons

- If the ballot is marked “Negative, with reasons”, do the following:
  - On separate file, identify each code change for which you are voting negative and include a reason for each.
  -

# Public Comment Draft #1 Balloting Procedure

- As presented at previous IECC Consensus Committee meetings, approval of Public Comment Draft #1 requires a 2/3 majority in accordance with Section 9.4 of the ICC Consensus Procedures. Once ballots have been collected, all comments concerning individual code change proposals— including supportive comments and negative comments —will be collected.
- For each proposal receiving a negative comment, the negative comments and other comments will be

# Public Comment Draft #1 Balloting Procedure

- A recirculation ballot (**third balloting**) will be provided with respect to a report (report #2) that lists comments and final vote tallies (resulting from the second balloting) for each code change proposal. Open for 14 days. If report #2 achieves a 2/3 affirmative vote, the code changes within report #2 will become Public Comment Draft #1.
- If report #2 does not achieve a 2/3s affirmative vote, every code change that did do not achieve a 2/3 vote during second balloting after the recirculated ballot will be added to an agenda for consensus committee resolution.
- Following the resolution of items in the consensus meeting, a recirculation ballot (**fourth balloting**) will be sent out to those not in attendance. The ballot will be open for 2 weeks.
- All outstanding code changes require a 2/3 affirmative vote to be incorporated into Public Comment Draft #1 at this stage.

# Public Comment Draft #1

# Public Comment Draft #1

- The first step will be subcommittee review and recommendation on the proposals assigned to the subcommittee. Recommendations require a majority vote.
- Approval of proposed code changes to Public Comment Draft #1 at the Consensus Committee will require a 2/3 vote during the meeting.
- Final balloting of the approved changes to Public Comment Draft #1 will follow the same process as the development of Public Comment #1.
- If substantive changes (technical changes) are made to Public Comment Draft #1 only those changes will be reflected in Public Comment #2 for comment.
- Process repeats.

# Continuous Maintenance

# Continuous Maintenance Process

- Committee: Section 8 of the ICC CP state that a committee maybe formed as a standing committee for purposes of continuous maintenance.
- ICC Consensus Procedures used to develop continuous maintenance amendments
