# International Energy Conservation Code Code Change Proposal Tracking Sheet

IRCED1-2-22, Remove all

Proposal #

Recommendation	<p>The SC recommends Disapproval of the above proposals.</p> <p>The proponents present discussed their reasons for not supporting the inclusion of an All-Electric Appendix in the 2024 IECC. However, since the Appendices are optional for adoption by individual Jurisdictions and the Appendix was supported by voting members and members of the public during the initial public input phase, the SC members voted to Disapprove all the proposals that completely removed this new Appendix. Instead, the SC is open to considering modifications of this Appendix in order to address specific concerns identified by proponents.</p>

Subcommittee Notes	The referenced proposals have been grouped by identical content, discussed, and voted on as a whole.

The SC recommends Disapproval of the above proposals.

Recommendation

The proponents present discussed their reasons for not supporting the inclusion of electric-readiness requirements in the main body of the 2024 IECC. However, since the addition was proposed during the initial public input phase and was supported by voting members and
